5<sup>th</sup> March 2009

Dear Chris,

**TESTIMONIAL**

You asked me whether Pannar would be willing to provide a testimonial. I've only ever done this once before, and then only because I was really impressed with the service we'd received from the company in question.

In your case, I am delighted to make this my second because I have to say that over the six months we've been using easyCMDB, Tech Inventions has provided the highest levels of responsiveness that I've ever experienced during my twenty-four years in IT. Tech Inventions helped us set up our system; migrated data for us, and even customized the system in areas where we wanted to do things differently. Unlike most implementations I've been through, this one's kept me smiling throughout. You can quote me on any of that and give my name and telephone number for verification purposes.

As we move to an in-house implementation, I look forward to more of the same. Thanks for all your help.

Best regards,

Paul Leigh  
IT Manager  
Pannar Seed (Pty) Ltd
